Forecast for Wednesday 27 Nov 2024

Weather: Rain at first, this wintry on higher summits, but this dying out and clearing east during the first half of the morning. Cloud then thinning and breaking, before clearing around lunchtime. Brighter in the afternoon with light winds and sunny spells, but feeling cold. Freezing fog patches may form in the valleys during the evening.

Chance of cloud-free hill tops above 800m: 20% improving to 80%.

Low Cloud and visibility: Widespread cloud above 400-500m at first but this lifting and thinning with areas of cloud above 600-700m by mid-morning. Then cloud mostly lifting and breaking by lunchtime, although some patches may linger on the highest summits. Visibility will be poor or very poor initially in rain and low cloud, but will gradually improve, with good visibility developing for most in the morning. Very poor visibility in freezing fog in valleys during the evening.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Feeling cold out on the mountains but weak winter sunshine in the afternoon will provide some brightness.

Forecast for Thursday 28 Nov 2024

Weather: Freezing fog patches may form overnight in the valleys, with this being slow to clear during the morning. Otherwise, a bright morning with hazy sunshine, but increasing cloud later in the afternoon and evening. Strengthening southeasterly winds, with gales possible on higher slopes later.

Maximum wind: Southerly or Southeasterly 35-40 mph gusts 45-55 mph by mid-afternoon.

Chance of cloud-free hill tops above 800m: 90% cloud mainly above all summits.

Low Cloud and visibility: Freezing fog patches in the valleys will slowly lift and break during the morning. Cloud thickening and lowering during the evening with patchy cloud developing above 600m later. Mostly very good visibility, but very poor in fog or low cloud.

Temperature: **Valleys:** Minus 2 Celsius rising to Plus 4 Celsius.
At 800m: Plus 2 Celsius rising to Plus 5 Celsius later.
Freezing level: 1000m rising above summits later.
